Currently, claims 9-12, 22 and 25-45 remain pending.

*Allowable Subject Matter*

Claims 9-12, 22 and 25-45 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, taken alone or in combination, fairly shows or suggests all the limitations as claimed.

Re claim 9, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: forming a gate contact disposed on the barrier layer adjacent the ohmic contact; forming a first dielectric layer on the barrier layer; forming a gate recess in the first dielectric layer; wherein forming a gate contact comprises forming a gate contact in the gate recess; and wherein forming a contact recess comprises forming an ohmic contact recess in the first dielectric layer and the barrier layer that expose a portion of the nitride-based channel layer.

Re claim 12, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: forming a gate contact disposed on the barrier layer adjacent the ohmic contact; forming a first dielectric layer on the barrier layer; wherein forming a gate contact comprises forming a gate contact in the first dielectric layer; and

wherein forming a contact recess comprises forming an ohmic contact recess in the first dielectric layer and the barrier layer that expose a portion of the nitride-based channel layer.

Re claim 22, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: forming holes in the channel layer adjacent the contact regions; placing n-type nitride-based semiconductor material in the holes; and wherein forming an ohmic contact on the contact layer comprises forming an ohmic contact on the contact layer and on the n-type nitride-based semiconductor material in the holes.

Re claim 25, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: forming a nitride-based contact layer on the exposed portion of the nitride-based channel layer and the masking layer; selectively removing the masking layer and a portion of the nitride-based contact layer on the masking layer to provide a nitride-based contact region; forming an ohmic contact on the nitride-based contact region; and forming a gate contact disposed on the barrier layer adjacent the ohmic contact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
